

	Project	Sector	Proposer
1	Sustainable integrated pest management	Agro-food	D.A.Re. - Distretto Agroalimentare Regionale
2	Improvement of the mechanical properties of biopolymeric blends and biodegradable materials by medium chain length polyhydroxyalkanoates	New materials	Parco Scientifico e Tecnologico della Sicilia SCpA
3	Multi-fidelity optimization of composite tanks for the aerospace sector	Aerospace	IMAST S.c.a.r.l.
4	Multi-fidelity optimization of composite tanks for the automotive sector	Automotive	IMAST S.c.a.r.l.
5	Fire retardant additives	New materials	IMAST S.c.a.r.l.
6	Biomedicine and Biotechnology, Drug Development, Cosmetics, Pre-Clinical Research	Biomedicine	ICSI - Centro-interdisciplinare per lo Sviluppo di Metodologie Innovative per il lo Studio ed il Trattamento delle Patologie Infiammatorie
7	Hybride Vehicle powered by hydrogen and ammonia	Automotive	Pont-Tech Scrl
8	Innovative Nanostructured Catalyzer to Generate Hydrogen from Wind energy	Energy & Environment	Pont-Tech Scrl
9	Increase Photovoltaic Installations Efficiency Up to +80%	Energy & Environment	MB Solar c/o Pont-Tech
10	3D Virtual Reality Immersive Simulation for Oil&Gas Industry	ICT – Augmented reality	Virtual Reality and Multimedia Park
11	3D Virtual Reality Immersive Experiences for patients treatments	ICT /Medicine – Virtual Reality	Virtual Reality and Multimedia Park
12	Innovative ecological boats for inland waterways	Nautics	CJ Aerospace c/o Pont-Tech Scrl
13	Nanotechnology in space science and life science	Nanoscience	Istituto di Struttura della Materia - Italian National Research Council (Filas)
14	Automatic Translation of written text into sign Languages	ICT	Virtual Reality and Multimedia Park
15	The “Architecture of the performance” (CROSS-Lam Wood technology, Full services – design and construction, Project financing, Fast delivery)	Building	HABITECH - Distretto Tecnologico Trentino Società consortile a.r.l
16	Project “Crisalide” (Micro-cogeneration system based on fuel cells powered by natural gas, GPL or bio methane)	Energy & Environment	HABITECH - Distretto Tecnologico Trentino Società consortile a.r.l
17	High-performance bio-based polymers – Using bio-sources to create novel high-performance polymers for industrial applications	New Materials	Area Science Park
18	Web Cloud, web management, web monitoring (alarms, warnings via SMS and/or e-mails, climatic stations, monitoring of hydro-geological asset, etc.)*	ICT	WiMotics
19	The Innovation Factory for cleantech businesses – green building, renewable energy, environment)*	Energy & Environment	Progetto Manifattura Srl
20	Identity and Access Management (IAM) and digital signature over public key infrastructured based on smart cards, systems for safe identification, etc*	ICT	Bit4id srl

21	<i>The Golp is a monitoring device that make available to the final user data from the photovoltaic plant such as energy produced, energy consumed, power and faults*</i>	Energy & Environment	PV Energetica
22	<i>Modeling handwriting for building reading machines</i>	ICT	Natural Intelligent Technologies (N.I.Te.) s.r.l.
23	<i>Metal cutting technologies, Innovative Shop Floor Control, Non linear process control.*</i>	Industrial Production	Ferraioli S.r.l.
24	<i>Sustainable Transportation / Energy - HYSOLARKIT focuses on the development of a conversion kit aimed at converting conventional cars into hybrid solar vehicles (Mild-Solar-Hybrid)</i>	Automotive – Transport	E-ProLab – Energy propulsion Laboratory, Dept. Industrial Engineering – University of Salerno
25	<i>Solar Energy – Thermal and Photovoltaic Concentration (CPVT)*</i>	Energy & Environment	Greenetica Srl
26	<i>Mini-Biogas Plant with for farms with Hi-performance and Low-cost management*</i>	Energy & Environment	N.R.E. RESEARCH srl c/o Area Science Park
27	<i>Wearable Force Supportive Robotic Device: an effective innovation to actively increase the safety at work</i>	Building	Perceptual Robotics Laboratory – Scuola Superiore Sant'Anna c/o Pont-Tech Scrl
